

## **Abstract**

### **Title:**

**Athletics at elementary schools in Kolín district**

### **Aims of work:**

The aim of my thesis is to collect information about present education of athletics at second grade of elementary schools from children's point of view. We would like to find out the popularity of component athletic disciplines among the pupils, standard of material equipment at schools for athletics classes and if there is an athletic club at school from the inquiry.

### **The method:**

I used an inquiry method, where the respondents answered questions created by myself. Pupils from second degree of elementary schools in Kolín district were the representative file.

### **Results:**

We reached the conclusion that popularity of athletics among the children at elementary schools is not very great from acquired and elaborated data. We also found out the popularity of component athletic disciplines among the pupils and school equipment for athletics classes. Our theories were validated only in part.

### **Key words:**

Athletics, pupils, elementary school, athletic disciplines training.
